

# NEWBORN HEARING SCREENING MONTHLY

AN OFFICIAL PUBLICATION OF COLORADO EHDI

## Dedicated newborn hearing screening support for professionals

Did you know that the Colorado Early Hearing Detection & Intervention (CO EHDI) team offers free, dedicated newborn hearing screening support to all professionals in the state of Colorado who are involved in newborn hearing screening? Whether you are a midwife, an audiologist, a nurse, or a newborn hearing screening coordinator, we are here to support you!

Experiencing a high referral rate on newborn hearing screenings at your facility? Having trouble with your newborn hearing screening equipment? Considering purchasing new newborn hearing screening equipment for your facility? We are here to support you and answer your questions. You can reach out to one of our staff members, Hannah Glick, AuD, PhD, CCC-A at any time by phone or email to get your questions answered! See Hannah's contact information below.

## Newborn hearing screening FAQ

Below are some commonly asked questions when it comes to newborn hearing screening support from CO EHDI.

**1**

### **How do I contact technical support if I have questions?**

You can email Hannah Glick AuD, PhD, CCC-A at [hannah.glick@colorado.edu](mailto:hannah.glick@colorado.edu) or call her at 303-518-2053 with questions. Please leave your name and contact information, and a brief message about your questions or issues. She will get in touch with you as soon as possible!

**2**

### **What types of support does CO EHDI provide when it comes to newborn hearing screening?**

The CO EHDI team can share best practices in newborn hearing screening, troubleshoot your newborn hearing screening equipment, share ways to get your newborn hearing screening equipment calibrated, support your purchase of new newborn hearing screening equipment, help you to access training resources, and more!

**3**

### **What if my question is more complex than the support that CO EHDI can provide?**

If we can't answer your question, we will put you in touch with other professionals who can provide support. We are lucky to have a strong network of highly-trained newborn hearing screening professionals throughout the state who can help to ensure your questions are answered.
