EHDI System Feedback	<p>Heather provided a summary of feedback received to date from stakeholders regarding the EHDI system. Participants agreed in general with the feedback already received. They supported the idea of moving to a quarterly meeting structure, however, a comment was made that we should find avenues to ensure that momentum for activities and projects continues if we aren't meeting regularly.</p> <p>Participants commended EHDI on the collaborative nature of the work and supported the idea of continuing to align components of the system and reduce duplication to make things easier to navigate for families.</p> <p>There was a comment that professional development and parent training are always helpful since the system changes and it's important to keep people current.</p> <p>A participant mentioned that the UHL population is important to continue focusing on because there is a gap between outreach efforts and families participating in progress monitoring.</p>
